About Vedubox

Vedubox is an online learning platform that meets all your digital learning and training needs with a single LMS.

It is preferred by many companies, educational institutions, NGOs and government agencies.

Vedubox, is an all-in-one solution, a special and exclusive option with its integrated, secure, economical and scalable technical infrastructure, and is designed to respond to changing and evolving customer requirements.

Usage Areas of Vedubox

Employee Training

You can prepare interactive employee trainings with videos, animations and tests; you can organize live trainings. In this way, you can increase the productivity of your employees, their loyalty to your company and service quality.

Partner Training

You can inform your business partners online about your products, services and processes and organize video conferences through the system. You can upload different types of documents, videos or content to the system, easily promote your products and work more efficiently with your business partners.

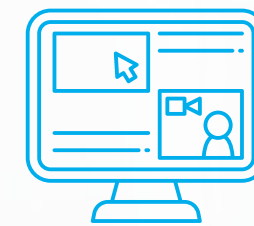

Usage Areas of Vedubox

Reseller Training

You can keep your communication alive with online live meetings and dealer webinars so that your dealers can learn your products and services accurately and quickly. You can make quizzes for your participants, organize interactive trainings for them, and sell training.

Customer Training

You can inform your customers about your products and services in a practical and effective way and offer all kinds of training online. You can make customer webinars. You can upload various types of documents to the system, easily promote your products and increase the efficiency of your dealers.

The screenshot displays the Vedubox website interface, which is a platform for selling online courses. The page features a navigation bar with the Vedubox logo, a search bar, and user information (Merhaba, Mehmet Şahin). Below the navigation bar, there are several course cards arranged in a grid. Each card includes a title, a price, a discount percentage, and a date. The courses are categorized by subject matter, such as 'Endodontinin Klinikteki Önemi', 'Büyük Eğitim Paketi', 'Etkili İletişim ve Beden Dili Eğitimi', 'İSG Eğitimi', 'Kurum Kültürü ve Kurum İçi İletişim', 'Kurumsal Eğitim (Karışık İçerikler)', and 'Proje Yönetimi Başlangıç Eğitimi'. The interface also includes a 'Sırala' (Sort) button and a '2020 Girişler' (2020 Entries) button.
